

### Welding Applications With Fume Extraction Guns

**Energy Saving**

1

**Waste compartment**

2

**Vertical Cartridges**

3

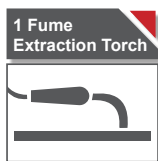

**Easy Maintenance**

4

**HIGH**  
PRESSURE

**FLOW**  
LOW

Code: 1980.0001

**WELD ONE** was specially developed for welding applications with fume extraction guns. Its individual concept, which works with one fume extraction gun, allows great mobility and facility in the system installation and adaptation. The WELD ONE has a filter system with high particle retention capacity and has a waste compartment for easy cleaning.

Voltage	1x230 V – 50/60 Hz
Power	1000 W
Maximum Pressure	250 mBar
Flow rate	180 m <sup>3</sup> /h
Filtering Surface	3 m <sup>2</sup>
Noise	72 dB(A)
Aspiration Size	Ø 38 mm
Weight	23 kg
Dimensions	300 x 300 x 720 mm
